

**Rudy Marnich, Director of Sustainable Design Astorino, LEED AP BD+C**

Rudy believes in the potential for the fields of business, human behavior, and sustainable architecture to fuse in the creation of high-performance, sustainable buildings designed for human comfort. As the Director of Sustainable Design at Astorino, he oversees the firmwide integration of sustainability into the company's design process for national and international projects. Design delivery process development and performance modeling are combined with emerging sustainable techniques & technologies in support of a more performance-based sustainable outcome. His research and seminars cover new metrics for defining sustainable building goals, early-design performance modeling, passive cooling techniques, and solar control with tensile fabrics.

Prior to joining Astorino, Rudy was Architectural Designer & Researcher at Gensler - Los Angeles. He holds a Bachelor of Science in Business from the University of Virginia, Master of Arts in Sociology from the University of Pittsburgh, and a MArch in Sustainable Design from CalPoly – Pomona where he earned the AIA Henry Adams Certificate of Merit. Rudy is LEED® AP BD+C accredited.
