

**Laura Nettleton** has over thirty years of experience in housing, green building, and development. Her architectural firm, Thoughtful Balance is dedicated to sustainable design. Thoughtful Balance designed the first certified Passive House project in Western PA, and she has several more Passive House projects under construction. Her projects have been recognized by the AIA, NAHB, Eco Home Awards, NESEA, Pennsylvania Environmental Council, the USGBC, and HUD. Laura is also a LEED accredited professional. She holds a Master of Architecture degree from the University of Oregon and was a member of the second graduating class-accepting women.
