Bio

Armed with a Master's Degree in Architecture, a Bachelor's Degree in Environmental Science, and a dedication to driving positive change in the built environment, Ozzie has worked in the building industry all his life. He specializes in integrating across disciplines and across project stages to bring healthy, efficient, and effective solutions to his Client's largest challenges. At CH2M, Ozzie is the Global Sustainability Director for Advanced Facilities and Regional Liaison for the Small Business Partnership Program. Ozzie is a founding member of the United States Green Building Council's LEED User Group for Industrial Facilities and represents CH2M as public speaker in community events and industry conferences.

In his spare time, Ozzie serves the community as President of the Jardin Portland Foundation, Board Member of the Regional Arts and Culture Council, and as Featured Speaker for the Oregon Association of Minority Entrepreneurs Monthly Sustainability Series.
